

Hexagon

Design by Nendo

HEXAGON is a contemporary interpretation of a form, already known in ancient Greek geometry. The regular six-edged-units are each divided by vertical sheets. Stacked they produce a beautiful rotational symmetry, typical for the HEXAGON, which Nendo cleverly exploits. They come in several heights, varying from 72 cm to 178 cm, with a 36 cm model and higher models, other colours or with turntable also available upon request.

Nendo

Nendo is a design studio founded by Oki Sato and is based in Tokyo, Singapore and Milan. Nendo concentrates on tranquil products and technically advanced research. He realizes small surprises to people through a multidisciplinary practice. In January 2010, an overview of his work was exhibited in The Museum of Arts and Design in New York. Besides designing furniture, Nendo recently designed the exhibition space of the 21th century Museum of Contemporary Art in Japan and concept stores for Issey Miyake, amongst other designs. Nendo was 'Designer of the Year' (Wallpaper* magazine) and 'Designer of the Year' (Elle Deco International Design Award) in 2012.

"Hexagon, a bookshelf in the form of a hexagonal pillar. Each side is set off 120° from its neighbours, allowing access from all directions, and giving the bookshelf a different form depending on the angle from which it's viewed"

- Oki Sato, Designer (founder of studio Nendo)

quodes®

Materials, construction

Materials: powder coated sheet steel (horizontal panels) & extruded aluminium (vertical panels)

Construction: each Hexagon has six adjustable feet and can be used freestanding (extremely stable).

Upon request: turning mechanism, which can be mounted under the cabinet, additional height approximately 1,5 cm. Hardly visible, covered in a black powder coating. Turns on flat floor (carpet is less ideal).

Colours

Colours: mat traffic white (RAL 9016).
Other colours upon request.

Models

Standard stock items:

L51 H72 D44 cm: 2 modules
L51 H178 D44 cm: 5 modules

Available upon request

L51 H36 D44 cm: 1 module
L51 H107 D44 cm: 3 modules
L51 H143 D44 cm: 4 modules
> 178 cm (>5 modules)

Customer specific, for projects

Non-standard cabinet heights available upon request; technically higher cabinets are possible.
Turning table as option.
Other colours than mat traffic white (RAL 9016).

Bookcase modules
